

Radinn
**Product Offering
2020**

Creating waves since 2013

At Radinn we've created jetboards since 2013. Ever since the first version we've seen the unbridled fascination and joy the Radinn board brings out in people when they go for their first ride.

Our mission is to make jetboarding available to anyone who hungers for action watersports - and to keep striving for faster, more radical, and safer ways to catch that thrilling 'Radinn wave'!

For 2020 we offer multiple models, a range of power options, a lower entry price, much improved quality and market leading shipping times.

Alexander Lind
Founder of Radinn

The Radinn Customer Advantage

Electric

No trips to the gas station or smelly fumes to worry about.

Powerful

Powerful Jetpack provides plenty of speed and acceleration!

Long Range

Industry leading batteries give you longer ride time and lets you go further!

Silent

Focus on your ride and listen to the water and waves instead of loud engine noises.

Connected

Wireless updates add functionality and improve the user experience over time.

No maintenance

Rinse off with fresh water and you are ready to go enjoy the sunset.

Modular

Use your existing jetpack in a second board shape with Radinn's easily swapable design.

Modular Product Offering

Customizable for every ride type

For the season of 2020 we have listened to the input of both retailers and end customers, and will be offering more product variations and also a lower entry price.

Our unique and patented modularity also offers the possibility to use the same Jetpack in various board shapes.

- ✓ A board for every need
- ✓ Use the same Jetpack in multiple boards
- ✓ Start with the essentials and upgrade as you progress

- ✓ Easy maintenance and replacement
- ✓ More frequent product updates
- ✓ Modularity encourages upsales and returning customers

Putting together a complete Jetboard
